Using the Course Planner Tool

Course Planner is a planning tool that enables Soldiers to identify the courses they plan to take to complete their degree. Soldiers are required to complete the Course Planner for degrees that do not have automated checks in GoArmyEd by the time they complete six (6) semester hours with a home school or nine (9) semester hours at any school using Tuition Assistance. Soldiers in this category will be automatically routed to complete the Course Planner prior to enrolling in more classes when this semester hour criteria are met. In order to enroll in classes, their Course Planner must be approved.

View the **“Course Planner Overview”** and **“Using Course Planner”** reference documents by selecting the **“View Reference Documents”** link located in the Training Resources section on your GoArmyEd homepage for more information.

How to Request TA and Enroll in a Class

TA Requests MUST be approved before the class start date.

Depending on the school you attend and the degree you pursue, you will be presented with one of several enrollment paths. GoArmyEd will determine your path automatically and all approved TA will be paid directly to your school by the Army upon successful class completion. If you are required to complete the Course Planner, the Planner must be approved to enroll in classes.

View **“GoArmyEd’s Class Enrollment Guide Overview”** reference document for more information on enrolling in a class by selecting the **“View Reference Documents”** link located in the Training Resources section on your GoArmyEd homepage.

Note: If TA does not cover the entire cost of the class, you are responsible for the remainder, which will be billed directly by the school.
